Smaller framed, brockle-faced, F-1 bull.
1 of 3 bulls out of 5512. Half brother to Lots 35 & 36.

Lots 30-34 are half brothers out of X211 used on Hereford cows.
Low birth combined with big frame and growth.

Better bull than the WR and YR numbers reflect.
I would contribute some of the lower numbers on a few of these F-1 bulls due to pasture conditions more so than the cow.

Possible calving ease candidate. You be the judge.
Goggled eyed bull.

Low birth weight bull.
These F-1 bulls should work nicely on Sim-Angus cows.

Goggled eyed bull.
Out of a P606 daughter that continues to perform.

The Top Selling Bull from Oleen's 2012 Sale.
Calving ease sire with tremendous growth and performance.

An awesome Hereford herd sire from Rausch. Unfortunately we lost him in his first breeding season and only had a few calves out
